PUSHING THE ENVELOPE

Tyvek® ENVELOPES AND PRODUCTS

Tyvek® is the DuPont™ brand name for spun-bonded olefin. Tyvek® sheets combine the best properties of paper, film and fabric. This unique combination of properties makes Tyvek® perfect for the envelope and packaging industry.

Tyvek® has established a new category in the industry: ***The High Performance Envelope.***

Tamper Evident Envelopes, Card Pouches & CD Sleeves

The performance of these products has been taken to a new level through the use of Tyvek® material instead of paper.

There are numerous advantages to Tyvek® envelopes and speciality products:

Tear, Burst and Puncture resistant. They are incredibly strong and practically indestructible giving unmatched protection.

Water - and moisture - resistant. An added dimension of protection and perfect for archiving and storage.

Flexible and lightweight with an outstanding strength-to-weight ratio. Typically 2 to 3 times lighter than paper envelopes and boxes, yet considerably stronger making shipments lighter and significantly reducing mailing and shipping costs.

Distinctive looks. Bright white look and silky smooth feel which enhances graphic images and corporate logos.

Anti-static, non-abrasive and non-linting making it an excellent material for specialised applications aimed at optical and magnetized media.

100% Recyclable. Tyvek® is made from 100% High Density Polyethylene (HDPE) Fibres, an environmentally responsible material, which can be recycled into other useful materials.

*DuPont™ makes the Tyvek® brand protective material; Tyvek® envelopes themselves are manufactured by independent firms that convert this unique, high-performance material into a vast array of styles and sizes.

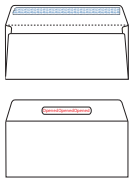

Capital Envelopes has been appointed exclusive converter of Tyvek® envelopes for the lower Gulf region.
